

24 July 1951

MEMORANDUM FOR: EAD

SUBJECT: Services of Dr. Hilger, GUSTAV

REFERENCE: B.J.M.'s memo dtd 19 July 51

1. FF-4 utilizes the services of Dr. Hilger from time to time for consultation on certain matters and to prepare studies on subjects of special interest.

2. As FF is very much interested in the project involving Soviet leadership, we would have no objection to Dr. Hilger's working on this task. However, we would wish to have an understanding that he would have sufficient free time to consult with us whenever we needed his advice. In addition, we would wish to feel free to call upon him for short papers from time to time.

3. I see no reason why our utilization of him for the above, and State's utilization of him for their projects should not fit together over the next six months in a manner satisfactory to both. If such an arrangement is agreeable to Mr. Ruggles, it is requested that this be worked out with Dr. Hilger by [] who has been the main OPC contact with the Doctor over the past year.

FF-4: []

Deputy Chief, FF
